REVA SAXENA

Data Analyst | BCA Student — Python, SQL, Data Visualization & Analytics

Jaipur, Rajasthan | 6378863351 | revasaxena90@gmail.com | LinkedIn

PROFILE

BCA student and aspiring Data Analyst with four internships spanning data analytics, AI/BI, and Python development. Experienced building predictive models, real-time dashboards (Python, Plotly, SQL), and automated data pipelines — from cleaning and querying data to visualizing and communicating insights for business decisions.

CORE SKILLS

- Programming & Querying: Python, SQL, JavaScript, Scala, C, Java
- Data Analysis & Statistics: Pandas, NumPy, Scikit-learn, EDA, Data Cleaning & Wrangling, Statistical Analysis, Hypothesis Testing, A/B Testing, Regression, Time-Series Analysis
- BI & Visualization: Power BI, Tableau, Plotly, Microsoft Excel (PivotTables, VLOOKUP, Macros), Google Sheets, Dashboarding & KPI Reporting
- Cloud & Big Data: Oracle Cloud Infrastructure (OCI), Apache Spark, Big Data Fundamentals
- AI & Automation: Generative AI Tools, Prompt Engineering, AI-Driven Analytics, Machine Learning Fundamentals
- Web & Frameworks: HTML, CSS, React, Flask
- Tools & Platforms: Git, GitHub, Docker, Postman, Jupyter Notebook, Anaconda, VS Code
- Professional: Data Storytelling, Stakeholder Communication, Agile/Scrum Basics

EXPERIENCE

AI Strategy & BI Intern | CSRBOX (IBM SkillsBuild x AICTE) *Mar 2026 — Apr 2026*

- Analyzed 3 real-world business case studies to apply BI and AI frameworks to data-driven decision-making, presenting insights and recommendations to a mentor panel.

Website Developer Intern | Mridul and Rohan *Sept 2025 — Oct 2025*

- Converted 10+ UI design mockups into responsive, functional website pages, improving cross-browser compatibility and cutting page-load time by roughly 20% through CSS optimization and DevTools/DOM debugging.

Data Analytics Intern | Algonive *Jun 2025 — Jul 2025*

- Built predictive models and anomaly-detection workflows on a 25,000+ row transactional dataset, lifting detection accuracy by roughly 18% over the prior baseline rule-based checks.
- Designed and shipped real-time analytics dashboards in Python, Plotly, and SQL, giving stakeholders live visibility into 10+ key business metrics.
- Automated data validation and transformation in the pipeline, cutting manual data-prep time by an estimated 30-35% and reducing downstream data-quality errors.
- Queried and joined multi-table datasets in SQL to support 15+ ad-hoc analysis requests from the team.

Python Developer Intern | Cognifyz Technologies *May 2025 — Jun 2025*

- Built 5+ Python-based tools and mini-applications using clean, modular code for automation and basic data visualization.
- Automated web-scraping scripts to collect and structure 1,000+ records, cutting manual data-collection time by an estimated 70% while strengthening debugging and input-validation practices.

PROJECTS

Dynamic Pricing System | *Python, Machine Learning* Live Demo

- Engineered a demand-based dynamic pricing model using data preprocessing, feature engineering, and predictive modeling to recommend price adjustments from user-behavior signals.

Password Strength Analyzer | *HTML, CSS, JavaScript* Live Demo

- Built a real-time, rule-based password strength evaluator with vulnerability detection and actionable improvement feedback.

What If? Simulator | *HTML, CSS, JavaScript* Live Demo

- Developed an interactive scenario-comparison tool that visualizes outcome trade-offs across dynamic user-defined inputs.

EDUCATION

IIS (Deemed to be University), Jaipur

- Bachelor of Computer Applications (BCA) — Current CGPA: 9.7/10 | Expected May 2027
- Advanced Diploma in Data Analytics — CGPA: 9.8/10 | May 2026
- Diploma in Data Analytics — CGPA: 10/10 | May 2025

CERTIFICATIONS & TRAINING

- J.P. Morgan — Quantitative Research Job Simulation (Forage)
- Accenture North America — Data Analytics & Visualization Job Simulation (Forage)
- IBM — Data Analysis Using Python (Tableau, Excel & Data Visualization)
- Oracle Cloud Infrastructure 2025 Certified Developer Professional
- ACM Student Member
